

Grocery & Bakery Operations Requirements (GBORD) — Scheduler & Systems Test Sheet

Document No.: GBORD-TEST-33210

Revision: A

Release Date: June 25, 2026

Classification: Internal Use

1.0 INTRODUCTION

This test sheet defines operational and system requirements for bakery and grocery store operations to support scheduling, staffing, hygiene control, production timelines, and regulatory compliance.

2.0 AUTHORITY

[MO-1001] Store Manager Decision Authority

The Store Operations Program shall ensure the Store Manager retains authority to intervene in any situation harmful to product quality, food safety, or customer experience.

Rationale: Clear authority prevents delays in handling safety issues.

Mission Effectivity: All Stores

Verification: Inspection

3.0 ORGANIZATION AND PERSONNEL

[MO-1003] Food Safety Officers

Each store shall designate and train two certified Food Safety Officers.

Rationale: Ensures redundancy and regulatory compliance.

Mission Effectivity: All Stores

Verification: Inspection

4.0 EMPLOYEE SCHEDULING & MONITORING

[MO-104] Daily Staff Duty Requirements

Each employee shift shall include: A. 30-min break; B. Meal period for shifts >6h; C. Cleaning duties; D. Opening/closing tasks.

Rationale: Structured staffing prevents fatigue and ensures store readiness.

Mission Effectivity: All Locations

Verification: Inspection

[MO-179] Max Shift Duration

Employee shifts shall not exceed 10 hours; planning shall target 8 hours.

Rationale: Long shifts degrade performance and safety.

Mission Effectivity: All Locations

Verification: Inspection

[MO-113] Weekly Off-Duty Day

All employees shall receive 1 off-duty day every 7 days.

Rationale: Rest days reduce fatigue.

Mission Effectivity: All Locations

Verification: Inspection

5.0 INCIDENT RESPONSE & CARE

[MO-43] Customer Incident Response

The store shall provide first-aid response capability for onsite incidents (slips, allergic reactions, burns).

Rationale: Immediate care improves safety outcomes.

Mission Effectivity: All Stores

Verification: Inspection

6.0 ENVIRONMENTAL HEALTH

[MO-60] Pre-Shift Water Quality Check

Water used for baking, cleaning, and food preparation shall be tested daily.

Rationale: Ensures safe food production.

Mission Effectivity: All Stores

Verification: Inspection

[MO-65] Air Quality Monitoring

Bakeries shall monitor ventilation and airborne flour dust concentrations.

Rationale: Protects employee respiratory health.

Mission Effectivity: Bakeries

Verification: Demonstration

[MO-70] Surface Sanitation Checks

Work surfaces shall be swabbed and tested per sanitation schedule.

Rationale: Prevents microbial contamination.

Mission Effectivity: All Stores

Verification: Inspection

7.0 COLD CHAIN HEALTH & EXPOSURE MONITORING

[MO-172] Refrigeration Temperature Logging

All refrigerators and freezers shall log temperature continuously.

Rationale: Maintains food safety and regulatory compliance.

Mission Effectivity: All Stores

Verification: Inspection

[MO-173] Temperature Alarms

Temperature deviation alarms shall notify staff within 10 minutes.

Rationale: Prevents spoilage and contamination.

Mission Effectivity: All Stores

Verification: Demonstration

8.0 OPERATIONS COUNTERMEASURES

[MO-168] Dough Fermentation Control

Fermentation schedules shall maintain dough temperatures within safe ranges.

Rationale: Prevents spoilage and ensures product quality.

Mission Effectivity: Bakeries

Verification: Analysis

9.0 EMERGENCY SERVICES

[MO-184] Emergency Procedures

Stores shall maintain procedures for fires, gas leaks, and refrigeration failure.

Rationale: Ensures safety and rapid response.

Mission Effectivity: All Stores

Verification: Inspection

10.0 TRAINING AND CERTIFICATION

[MO-1005] Staff Training

All employees shall complete training in hygiene, customer service, equipment use, and allergen handling.

Rationale: Training ensures consistent operations.

Mission Effectivity: All Stores

Verification: Inspection

11.0 DATA MANAGEMENT

[MO-40] Operational Data Management

The store shall maintain logs of baking schedules, temperature logs, cleaning records, and staff schedules.

Rationale: Data supports compliance and auditing.

Mission Effectivity: All Stores

Verification: Inspection
